

Dear Prospective sEEG Data Applicant,

Thank you for your interest in accessing our sEEG dataset and related resources. To proceed with your request, please complete the form below and email the finalized version to shiweisong@fjmu.edu.cn.

Please carefully review the following important instructions before submitting the form:

- Submission Format

Please submit an editable PDF generated using tools such as Adobe Acrobat. Include an electronic signature within the document. Do not submit scanned images, photos of the form, or image files converted to PDF.

- Applicant Name

Enter your full legal name in English with correct spelling and capitalization.

- Institution Name

Provide the official full name of your institution (e.g., South China University of Technology), without abbreviations (e.g., SCUT).

- Mailing Address

Provide a complete, institution-recognized mailing address, including building and office details. This must be your personal institutional address. If you do not have one, please use your advisor's or supervisor's official address.

- Telephone Number

Include a complete phone number, with country code.

- Institutional Email Address

You must submit an email address affiliated with your institution (e.g., name@university.edu). Personal email accounts (e.g., Gmail, Outlook) are not permitted. This email will be added to our listserv and used for all communications, including your account credentials. Make sure your institution allows listserv messages to be received.

- Signature Requirements

Please sign and date the form using a valid electronic or digital signature. Signatures produced through Adobe Acrobat or scanned handwritten signatures are acceptable.

Incomplete or incorrectly prepared forms cannot be processed, and access to the dataset will not be granted until all requirements are met.

If you have any questions about the application process, please feel free to contact us.

Use of the requested data must comply with the following guidelines:

- (1) The user should acknowledge and cite the data provider using the publication listed in the documentation included with the dataset.
- (2) The user will not release data to a third party or redistribute the data.
- (3) The user agrees that no attempts will be made to re-identify the subjects, who have been anonymized in this distribution.
- (4) The user will not use the data for malicious purposes. This data can be used for research and technology development, but not for uses beyond these broad classifications.
- (5) The data recipient will delete the data from all computer systems when finished with the data.
